Thanks Alan. I have 12-3 for the meeting time. Could we adjust to meet that?

K

Kyle,

Attached is a draft agenda for our meeting. The agenda will guide the discussion but since it is an informal discussion, I suggest we be flexible in managing the discussion. Let me know if this agenda works for you.

Alan

Subject: Riparian Rule Analysis Meeting

Hi Alan,

Here are agenda items that we should cover when we meet next week on the 17th.

Stream Extent
Georegions
Timelines and Board Decisions

Also, the Governor's advisors will not be at the meeting but they have asked if representative managers from DEQ and ODFW could be at the meeting. We will be inviting Gene Foster and Bruce McIntosh to attend. It also seems that this will be more of a policy meeting and will not be getting into the weeds with technical discussions.

I cant seem to recall the timing and location of the meeting, could you send that to me. (b) (6)
